Property Description

Located in the jungle-covered mountains of Uvita, this parcel is part of the intimate Whale's Tail Estates eco-community. Cascading Cortezal is two parcels in one! The main lot is triangular in shape with Rio Cortezal making up one of the boundaries. There are excellent views from all three of the large plantels. The river's cascading symphony mixes with the song of parrots, toucans, monkeys, and a variety of other indigenous jungle creatures. Lot 7 – El Rio – Approximately 7 acres of manicured plantels, excellent ocean vistas and Whales Tail views. Panoramic perspectives from main building site. Sounds of wildlife and the Rio Cortezal EVERYDAY plus private access trail to waterfalls and cascades. Two established building sites with views, fruit trees, grassy knolls and a private drive make this an INCREDIBLE ESTATE! Also included is a \$5,000 electrical transformer installation for the property.
