- Acreage

Property Description

In any other part of the world, this fascinating piece of land would be considered national park! Located directly below the elegant, majestic 600 foot waterfall called "Diamante," it comes with a mix of virgin forest, cattle pasture, creeks with waterfalls, and multiple natural knolls. The stunning views range from the falls to the ocean looking up to Manuel Antonio and points further north. This is a must see -- it is about as close to heaven on earth as you will find in any piece of land.
