Property Description

Dramatic Coastal Waterfront Point located along the southern pacific coastline of Costa Rica and now better known as the Costa Ballena now has a recently renewed concession contract that is valid for another 20 years. Zoning is mixed use for commercial center for tourist shops, restaurant, residential, and recreational use. Parcel is a large three tiered leveled sites rising above a dramatic rocky lava flow reef with pocket sand beaches, and offers the most dramatic coastline views to north and south. There are hiking trails that lead you safely down to the waters edge. If you are an avid waterman, this site offers easy access to the playground for fishing off the rocks, or snorkeling in the shallow reefs where you will find an abundance of lobster as well as all types of fish to include pargo (snapper), mackerel, jack crevalle, barracuda, sea bass, and rooster among many others! Coastal sites like this are very limited, and do not miss out on this opportunity.
