## Property Description

The five bedrooms and 5 1/2 bathrooms home was designed by a renowned Costa Rican architect and offers breathtaking views all along Playa Grande and over the Tamarindo Rivermouth to the open ocean. The large common spaces are designed to make entertaining a pleasure even for larger groups where the gourmet kitchen, dining, living room, patio and infinity pool all come together to be shared. The bedrooms are very private and both master suites have impressive views over the estuary and mountains to the ocean. The crown jewel is the upstairs master, with the best views in the home and an incredibly natural feel, surround by nature. Your view will always be protected by the building guidelines in the community, and all utilities will be underground.
