Property Description

Enjoy the tropical paradise of Costa Rica living in a beautiful luxury home located in the permaculture community of La EcoVilla. Casa Astro Logo was co-designed by world-famous architect Benjamin Saxe and its astrologer-owner. The natural lighting throughout the house is accomplished by its large windows and doors that open out to beautiful ardens and fruit trees, while also providing excellent ventilation. The home has a spacious, open design with four bedrooms and three baths. It is constructed with high-quality materials including mangalito hardwood floors and ceilings, custom doors, and windows. The living room is highlighted by a permanent stained glass mosaic zodiac with a center light illuminating the glass-floored meditation room directly above. The expansive kitchen with its large Guanacaste banquet table opens onto the stone terrace with hot tub, living room, and family room to make this the perfect home for entertaining both family and friends.
