Property Description

Fronting on the main coastal highway, this property quickly rises 300' to a knoll that offers a bird's eye view of the coast from Cano Island to Manual Antonio. There are no neighbors, so you'll have totally natural panoramic views in every direction except right behind the property where there is jungle. It's a 10-minute walk up to the top, but it changes your whole perspective. It's the right place for someone who is looking for something spectacularly, creatively different. There is currently no driveway to the top. My first thought was, "Put in a 'gondola' track and park at the bottom." That would make for a totally awesome experience for you or your renters. More traditional would be a driveway that passes a couple rental cabins or guest houses, or perhaps orchards as it climbs 2 minutes to the top. Most of the land is cleared so you have maximum flexibility in how you use it. From the entrance off the highway it's a quick walk to Guapil beach.
